

DEXION®

Longspan Shelving

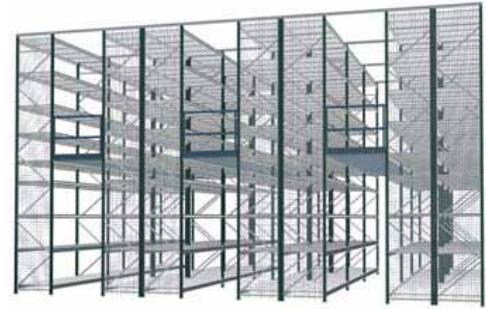

A new world of storage possibilities

- Choice of steel or chipboard shelves
- Footplates for stability on uneven surfaces
- Multi-tier shelving for maximum storage space
- Heights from 2000mm-5000mm
- Frame depths from 450mm-1200mm
- Clear entry bay lengths from 1000mm-3000mm
- Maximum shelf loads to 900kg
- Bay loads up to 4500kg
- Garment beam option

Dexion Longspan offers you virtually unlimited opportunities to expand your storage capacity, giving you higher density storage and greater flexibility whether you are storing boxes, cartons, tubes or wires. Long, uninterrupted spans of up to 3000mm make Longspan ideal for a wide range of big and bulky items and for archive storage.

Longspan is fast and easy to assemble, and uses a modular design with a lock-in system which requires no special tools, giving you maximum storage in minutes, whatever your available space. The system allows you to easily adjust your shelf heights and configurations as your stock patterns change.

The Longspan system incorporates a wide range of beams and frames, making it simple to customise an installation to meet your exact needs.

With Dexion Longspan shelving you get the most from your storage, with lost space kept to a minimum.

Open or mesh clad, medium and Longspan bays can be combined in the same unit for efficient storage of a wide range of stock items.

Beams available in two duties and a range of standard lengths to take steel or chipboard shelves.

Efficient storage for awkward loads and archives
