New R.D.C. for CEFCO

Project:	CEFCO – New R.D.C., Doncaster
Sector:	Distribution of Electrical Equipment
Product:	P90 Pallet Racking & Hi280
Storage of:	General Filing & Paperwork
Installation date:	2005
Completed by:	Multistore Storage Systems Limited

CEFCO, the Distribution arm of electrical wholesaler CEF required moving to a new Distribution Centre with no interruption of supply to its customers. “I’ve been at CEFCO for 16 years and before that I was with Exel Logistics. If somebody says ‘racking’, Dexion is the name you think about, they have always been a market leader and being a local Dexion Centre helped us make the decision to use Multistore,” says Jason. When we bring clients in to see the facility it has a definite “wow factor.” We are proud of the new facility and the efficiencies we have achieved thanks to Multistore & the project planning supplied by them. The bright modern look of Dexion P90 & Hi280 complemented the new building very well.

FOCUS ON CUSTOMER SATISFACTION
