### MAXIMUM BAY LOAD

**kgs**

**DO NOT CLIMB RACKS**

**FOR SAFETY'S SAKE  
REPORT ALL ACCIDENTS**

#### Maintenance of Storage Structures

- 1 Refer to contract drawings and/or technical data for maximum safe load.
- 2 DO NOT alter structure without either:
  - a. checking effects against technical data
  - b. obtaining necessary approval from supplier.
- 3 Instruct operators in correct use of equipment. (NOTE – damage due to impact can seriously impair safety.)
- 4 Conduct regular inspections to check for:
  - a. correct application and use
  - b. loads within allowable safe limits
  - c. accidental damage to or dislodgement of structure components.
- 5 Refer to relevant SEMA Codes of Practice for more detailed information.
- 6 If in doubt ALWAYS contact Supplier.
