Speedlock Mark III Pallet Racking

Adjustable Pallet Racking

- Optimum adaptation
- Reliable, robust and versatile
- Extensive range of accessories
- Adjustable pallet racking
- Narrow Aisle Racking
- Push Back Racking
- Pallet Glidestock

Dexion's Speedlock Mark III product range is renowned worldwide for its versatility, quality and strength. Whilst maximising the efficient storage of palletised loads, it also offers a comprehensive range of optional rack protection which protect both people and product. With over 50 years of product development, this system is established as the world's favourite pallet racking system. Designed and manufactured to ISO9001 and complies with the SEMA standards.

Speedlock Mark III uprights and beams are manufactured in black steel and both are phosphated and stove enamelled to a high quality in a range of colours.

Dexion's Beam Safety Lock

A wide range of beam sections and sizes enables Speedlock Mark III to be designed and tailor-made for pallet storage and heavy duty shelving needs.

Column guards and mesh screens.

Clearway and precision engineered end connectors provide easy jam-free beam adjustment, allowing repositioning without disturbing adjacent loads.

Dexion's Beam Safety Lock is fitted to minimise the risk of accidental dislodgement of beams.

The efficient solution for any space and any load
