## PWS distributors

**Project:** Durham Kitchens  
**Product:** Bespoke P90  
**Storage of:** Granite Work tops  
**Month/Year:** 2008  
**Completed by:** Dexion UK

### Customer's requirements

County Durham kitchen component manufacturer PWS Distributors have recently completed a new 100,000 Sq ft factory next to its Newton Aycliffe base to manufacture granite work tops.

The racking is a bespoke design to support 3,500 mm x 2,000 mm slabs of granite serviced by an automated crane between the racks.

PWS – a long term business in the North east – continued their relationship with Dexion Comino Ltd when they ordered the new racking for their new factory.

The Dexion racking utilises the latest Dexion P90 racking system and provides 22 levels of storage per bay with bay loads in excess of 20,000 kgs.
